

WHY BOTHER WITH A PERMIT?

- Building Permits provide the means for Building Officials to ensure the health, safety and welfare of building occupants.
- The Building Permit process helps you understand what the local bylaws and regulations are. Before any construction or remodeling work begins, a permit must be obtained.
- You have a major investment in the home or business you are about to build or remodel. When that home or business does not comply with the codes, the value of your investment could be reduced. Applying for a Building Permit notifies the Building Official that you are constructing or remodeling a building so he or she can ensure the regulations in the Ontario Building Code are followed.

WHEN IS A BUILDING PERMIT REQUIRED?

A Permit is required to construct or demolish a building. Construction can include anything in the erection, installation or extension or material alteration or repair of a building.

The following building projects require permits:

- **NEW BUILDINGS:** over 108 square feet (10m²) in area (ie. houses and other dwelling or residential buildings)
- **ACCESSORY BUILDINGS:** over 108 square feet (10m²) in area (ie. detached garages, tool sheds, etc.)
- **WOOD DECKS:** greater than 24 inches (600 mm) above ground level
- **ADDITIONS / EXTENSIONS:** to existing building even if under 108 square feet (10m²) in area (ie. sunrooms, porches, carports, garages, dormers, second storeys, etc.)
- **RENOVATIONS:** skylights, patio doors, rec rooms, finished basements, family rooms, interior renovations including commercial / industrial buildings, etc.)
- **CHANGES IN USE:** to a use with an increased hazard (ie. from office to retail)
- **STRUCTURAL ALTERATION:** removing loadbearing walls, beams or columns, repairing or reconstructing basement walls, foundations, floors, roof structures, etc.
- **PREFABRICATED BUILDINGS:** over 108 square feet (10m²) in area (ie. portable classrooms, kiosks, garages, tool sheds, patio roofs / enclosures, etc.)
- **FARM BUILDINGS:** barns, sheds, greenhouses, silos, etc.
- **MOBILE HOMES**
- **FIREPLACES AND STOVES:** (ie. wood stoves, solid fuel burning appliances, chimneys, etc.)
- **MATERIAL ALTERATIONS:** alterations to, or new, **fire separations** (ie. fire rated ceilings, wall or floors)
 - alterations to, or new, **exit facilities**
 - alterations to, or new, **fire protection systems** (ie. fire alarms, sprinklers, standpipe and hose systems etc.)
- **DAMPPROOFING:** or waterproofing of foundation walls

- **PLUMBING:** alterations to, or new, plumbing systems
- **STRUCTURES DESIGNATED BY THE BUILDING CODE, TENTS AND TEMPORARY STRUCTURES**
- **BUILDINGS RELOCATED OR MOVED**

NOTES:

The above list should not be considered all inclusive. There may be other situations which require a permit and if your project is not mentioned or you are not certain whether a permit is required, please contact your Building Department.

All buildings are required to meet certain restrictions as to building location as set out in the applicable Zoning By-law. These restrictions apply whether a Building Permit is required or not.

HOW DO YOU APPLY FOR A BUILDING PERMIT?

Building permit submissions are completed online through the Town of Pelham's building permit portal, Click the link to the [Town of Pelham Portal](#) to make your submission. The Portal requires you to create an account and login to make a submission. By creating an account, you may apply for a building permit and check the status of an application through the online Portal, anywhere, anytime.

WHAT HAPPENS NEXT?

Your submission will be prescreened/reviewed to ensure all required documents have been uploaded to the Portal. Insufficient or missing documents may be requested. The applicant can upload responding information, and the application remains in the system even if it is returned. If all required documents are received and acceptable, the submission will be subject to a zoning review to ensure compliance with the Zoning By-law.”.

If the submission is deemed to comply with the Zoning By-law, a statement will be sent to collect the Permit Application Fee of **\$293.00**. The fee is non-refundable and required in order to consider the submission complete. Once payment is received, the submission will be placed into the queue to be reviewed by a Plans Examiner. The Plans Examiner will review the submitted documents to ensure compliance with the Ontario Building Code. If the submission does not comply, a plans examination report identifying the deficient items will be provided to the applicant via the Portal. If deemed compliant, the permit will be recommended for issuance.

Following the plans examination process, a statement will be uploaded to the Portal documents indicating the remaining fees owed for the building permit. Once payment has been made, the permit is considered issued and construction may begin.

WHEN ARE YOU REQUIRED TO REQUEST AN INSPECTION OR PROVIDE NOTICE TO THE CHIEF BUILDING OFFICIAL OF THE VARIOUS STAGES OF CONSTRUCTION?

The permit holder or an authorized agent must notify the Building Department (building-info@pelham.ca) or by calling 905-980-6683 or 905-892-2607 'inspections' or extension 344), at least 2 regular business days in advance, of readiness to inspect the required stages of construction as prescribed by Division C, Sentence 1.3.5.1(2) of the Building Code:

1. Readiness to construct footings – prior to pouring.
2. Completion of footings and foundations prior to backfilling.
3. Part 9 buildings - completion of:
 - i. Framing
 - ii. Ductwork and piping for HVAC system
4. Buildings other than Part 9 - completion of:
 - i. Structural framing

5. Completion of insulation, vapour barriers and air barriers.
6. Completion of all fire separations & closures, fire protection including fire alarm / emergency systems, sprinkler & standpipe.
7. Completion of fire access routes.
8. Readiness for inspection / testing of:
 - i. building sewers and drains
 - ii. water service pipes
 - iii. fire service mains
 - iv. drainage and venting systems
 - v. water distribution systems
 - vi. plumbing fixtures and plumbing appliances
9. Readiness for inspection of suction and gravity outlets, covers and suction piping serving outlets of public pools and public spas.
10. Completion of circulation / recirculation system of a public pool or public spas and completion of a pool before filled with water.
11. Readiness to construct sewage system.
12. Completion of sewage system before backfill.
13. Completion of installation of plumbing not located in a structure before backfilling.
14. Completion of construction and installation of components required to permit occupancy.
15. For unfinished buildings – completion of construction and installation of components required to permit occupancy if the building or part of the building to be occupied is not fully completed.
16. Final inspection.

The permit holder or authorized agent shall facilitate safe access for inspections.

WHAT WILL IT COST?
